

Call for Abstracts

Quantitative Approaches for a Complex World

International Conference on Operations Research 2025 September 2-5, 2025

The International Conference on Operations Research, the annual conference of the German Operations Research Society (GOR), looks forward to welcoming you to Bielefeld, Germany.

The conference is an opportunity for academics, researchers and practitioners to discuss methods and applications of operations research, management science, data science and analytics. How can quantitative methods help to find solutions to problems in a closely networked world? This often requires interdisciplinary approaches typical of operations research.

We invite academics, researchers and practitioners from all over the world to participate in this inspiring OR 2025 conference and to submit an abstract and optionally a paper for the proceedings. The conference language is English. The conference will take place from **September 2-5, 2025 at Bielefeld University**.

Timeline (referenced at CET/CEST)

- **February 1, 2025**
Abstract submission opens
- **April 1, 2025**
Registration opens
- **April 30, 2025**
Abstract submission deadline
- **May 15, 2025**
Abstract notification
- **May 31, 2025**
Early-bird registration deadline
- **June 15, 2025**
Presenting author registration deadline
- **July 15, 2025**
Operations Research Proceedings submissions deadline (optional)
- **September 2, 2025**
